

## **Varun Master**

55 Jeffrey Circle Dayton, NJ 08810

**Phone:** 732-491-1256 | **Email:** [varunmaster95@gmail.com](mailto:varunmaster95@gmail.com)

**LinkedIn:** <https://linkedin.com/in/varun-master-58102540/> | **GitHub:** <https://github.com/varunmaster> |

**Portfolio:** <https://varunmaster.github.io>

### **Summary:**

Full Stack Web Developer with experience in the software industry and always hungry for more knowledge. Efficient at solving problems elegantly and effectively to develop easy to use applications. Great at working within teams and paying attention to details.

### **Technical Skills:**

**Languages:** JavaScript, HTML, CSS, C#, Java, SQL (MySQL and MSSQL), PowerShell, VB.Net, Node.JS, React.JS, Bootstrap, Mongo, Firebase, ORM, API, AJAX, JSON, Heroku, Git, GitHub

### **Projects:**

**Leadster** | [limitless-wildwood-17474.herokuapp.com](https://limitless-wildwood-17474.herokuapp.com) | [github.com/Sandman105/leadster](https://github.com/Sandman105/leadster)

- Created a full-stack application with a team called Leadster to offer and request services from the local community. Worked on the backend portion for the API calls and model/database side to hold the necessary information in a relational database

**EatsPlusPlus** | [safe-plateau-43129.herokuapp.com](https://safe-plateau-43129.herokuapp.com) | [github.com/Sandman105/EatsPlusPlus](https://github.com/Sandman105/EatsPlusPlus)

- Created a full-stack application with a team called EatsPlusPlus to see and review local restaurants and leave feedback. Worked on the backend side creating a server file and API routes for the end points and created the database model

### **Others**

- Set-up home network with FTP and Plex server using ESXi hypervisor
- Developed PowerShell script to send weekly server status (drive space and updates on server)

### **Experience:**

**Street Solutions, INC.**

June 2017 – August 2019

Business Technology Analyst

Jersey City, NJ

- Worked on Client-Support team working with clients and troubleshooting problems
  - Utilized logs and SQL queries to troubleshoot and resolve production issues
  - Designed and improved client-specific processes and configuration to help maintain and track secondary loan data points
  - Assisted in building new dashboards, workflows and channel configurations for client-specific needs
- Oversaw the deployments and releases of new builds as Release Manager
  - Head of deploying new code-base and rolling out patches to clients
  - Release new builds to internal environments for testing and updates
- Created tools to help maximize efficiency
  - Developed desktop application (using C#) to scan images and extract text
  - Created PowerShell script to run queries against DB to read from file and extract to csv file)
  - Developed PowerShell script to query and email status of SQL Server backup job to AWS

**Education:**

Bootcamp Certificate: Rutgers Coding Bootcamp, Somerset, NJ

A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handelbars.js & ReactJS

Rutgers University, New Brunswick, New Jersey

Bachelors in Business Analytics and Information Technology (B.A.I.T.), 2017

GPA: 3.48
